TITLE 6—AGRICULTURAL CREDIT FARM CREDIT ADMINISTRATION IFCA 1081

REGULATIONS RELATIVE TO EMERGENCY CROP AND FEED LOANS IN THE CONTI-NENTAL UNITED STATES MADE PURSUANT TO THE ACT OF CONGRESS APPROVED JAN-UARY 29, 1937, AS AMENDED

DECEMBER 30, 1938.

- 1. Loans for fallowing, for the production of crops, for planting, cultivating, and harvesting crops, for supplies incident and necessary to such production, planting, cultivating, and harvesting, and for feed for livestock, or for any of such purposes, will be made during the year 1939 by the Governor of the Farm Credit Administration to farmers in the Continental United States.
- 2. Such loans may be made to farmers who have acreage suitable for cultivation, the necessary equipment for farming operations, and livestock for which feed is required, and who are unable to obtain a loan from other sources, and, further, such loans will be limited to the amount necessary to meet the immediate and actual cash needs, and preference shall be given to the applications of farmers whose cash requirements are small.
- 3. Such loans shall be secured by a first lien, or by an agreement to give a first lien, upon all crops of which the planting, cultivation, production, or harvesting is to be financed, in whole or in part, with the proceeds of such loan; or, in case of any loan for the purchase and/or production of feed for livestock, a first lien upon the livestock to be fed.
- 4. Applicants must agree (1) to use seed and methods approved by the Department of Agriculture; (2) to plant a garden for home use; and (3) to plant a sufficient acreage of feed crops to supply feed for their workstock and subsistence cattle.

5. The total amount of leans made to any one borrower during the calendar year 1939 shall not exceed \$400. No lean will be made for an amount less than \$10. All leans will be made in multiples of \$5. Notes will bear interest, from maturity until paid, at the rate of 4 percent per annum; and interest to the maturity date at the same rate will be deducted at the time the lean is made.

6: No such loan will be made:

(a) To any applicant who is a standard rehabilitation client of the Farm Security Administration or whose application for a standard loan has been approved by the local supervisor of the Farm Security Administration and forwarded to the regional office for approval, as indicated on lists furnished by the Farm Security Administration.

(b) To any applicant who can obtain a loan from other sources, including production credit associations, in an amount reasonably adequate to meet his needs for the purposes for which such loans may be made. An applicant for a loan in an amount in excess of a minimum fixed by the Governor, or his representative, for the territory in which the applicant resides, must first submit written evidence from a production credit association that his application for a loan of the same or less amount has been rejected.

(c) To any applicant who has an application for a 1939 crop or feed loan pending with a production credit association.

(d) To any applicant who has not undertaken in good faith to meet his obligations in connection with any previous crop, feed, or seed loans as follows: has willfully misused the proceeds of a loan check for any purpose other than those specified in his application; has failed to plant a crop or has planted crops on lands other than those described in the application; has willfully disposed of crops mortgaged to the Governor, or failed to account satisfactorily therefor without applying the proceeds of the sale or the value thereof as a pay-

(g) To applicants who are occupants of the same farm or plantation, or are tenants of the same landlord in any one county (with the exception of tenants on land the title of which is vested directly in the United States, or in any State or municipal government, or in any drainage district) in an aggregate amount during the calendar year 1939 which (inclusive of all emergency loans theretofore made to them or any of them, during the calendar year 1939, pursuant to the Act of Congress approved January 29, 1937, as amended), exceeds the sum of \$1,000.

(h) To any applicant who has a means of livelihood other than farming.

(i) To partnerships, corporations, minors, guardians, agents, executors, or administrators; or, to receivers or trustees.

(j) To a wife living with her husband unless the husband joins in the application, note, and mortgage or lien.

(k) For the purchase of machinery or livestock, or for the payment of taxes, rent, debts, or interest or for any purpose other than as specified herein.

7. Loans may be disbursed in one payment or in installments at the discretion of the regional manager.

8. No loan for the production of crops will be made in an amount greater than the immediate and actual cash needs in the particular case to plant the crop in a manner approved by the Extension Service of the Department of Agriculture.

The immediate and actual cash needs in a particular case must not exceed the actual costs per acre in such case as determined by individual consideration of the various factors involved, e. g.,

feed, fertilizer, spraying material and/or fuel for tractors; the cost thereof; and any other incidental expenses currently incurred in that community in connection with the particular crop to be produced. In no event may loans for crop production purposes exceed the following maximum allowances per acre:

1 Where spray material, including dust, is used without commercial fertilizer, the allowance for such spray ma-terial and dust will be the difference, if any, between the allowances in column 2 and column 3. 2 of the grain allowances shown in the table not more than \$1 shall be used for summer fallowing.

These figures include allowances for fuel, oil, and feed for workstock for crop production purposes and incidental expenses, for which no additional allowances will be made.

An additional allowance not to exceed \$3 per acre will be made for water charges (including maintenance, electric power, and fuel) for crops other than rice grown on irrigated land.

Allowances for commercial fertilizer will be made only in areas where commercial fertilizer is customarily used.

9. No loan for the production of feed for livestock will be made in an amount greater than is actually necessary to produce sufficient crops to feed the livestock upon which a mortgage has been given to secure the loan. In no event may a loan for the production of feed for livestock be made on a basis which exceeds a maximum allowance of \$2 per acre.

This figure includes allowance for seed, fuel, oil, feed for workstock while engaged in the production of feed crops, and incidental expenses, for which no additional allowances will be made.

10. No loan for the purchase of feed for livestock will be made in an amount greater than is actually necessary to maintain the livestock until pasturage and/or forage or until feed is available, and in no case may a loan for the pur-57 whether it is necessary to purchase seed, chase of feed for livestock be made on a

per head of livestock per month:

Maximum Allowance for the Purchase of Feed for Livestock per Head per Month¹

_ \$3.00 Stock Horses_ Breeding Hogs ...

¹The allowances set forth in this table apply only to loans for the purchase of feed for the kinds of livestock listed above and are not to be used for the feeding of work-stock. Feed for workstock is included in the allowances provided for the production of both cash and feed crops.

- 11. An amount not greater than the actual harvesting and threshing expenses may, in the discretion of the regional manager, be released from the proceeds of the sale of any of the crops covered by a lien fiven to the Governor in any case where a borrower does not have the necessary funds or credit to pay for the harvesting and threshing of such crops.
- 12. The amount approved for a loan by the Governor or his representative under these regulations will be paid to the applicant by a disbursing officer upon receipt and approval by the Governor or his representative of the following docu-
- (a) Application in the form prescribed, signed by the applicant.
- (b) Promissory note (or bond in Pennsylvania) in the form prescribed, executed by the applicant for the amount approved by the Governor or his representative, payable to the Governor, bearing interest at the rate of 4 percent per annum from maturity until paid.

Note.—In order to afford adequate protection and preserve the statutory priority of liens for seed loans made in North Dakota, South Dakota, Minnesota, and Montana, the following requirements will be observed:

North Dakota.—Each applicant in North Dakota who applies for a loan for the purchase of seed, feed for workstock, gas, oil, and minor repairs on farm equipment only, or for one or more of such purposes, shall execute a note for the amount of such loan and secure the repayment of such loan by a crop lien; each applicant in such State who applies for a loan for any or all of the above purposes and for other purposes in addition thereto, shall execute a note for the total amount of such loan and secure the repayment of such loan by a crop mortgage and also shall execute a crop lien to secure the repayment of that part of such loan which is proposed to be used for the purchase of seed, feed for workstock, gas, oil, and minor repairs on farm equipment, or for one or more of such purposes;

Minnesota.-Each applicant in Minnesota who applies for a loan, either for the purchase of seed only or for the purchase of seed and for other purposes, shall execute a note for the total amount of such loan and secure the repayment of the entire loan by a crop mortgage,

basis which exceeds the following rates seed lien to secure the repayment of that swill be made to applicants such as are part of such loan which is proposed to be used for the purchase of seed;

South Dakota and Montana.-Each applicant in the States of South Dakota and Montana who applies for a loan for the purchase of seed only, shall execute a note for the amount of such loan and secure the repayment thereof by a seed lien; each applicant in the above States who applies for a loan to be used in part for seed and in part for other purposes shall execute a note for the total amount of such loan and secure the repayment thereof by a crop mortgage, and in addition thereto shall execute a seed lien to secure the repayment of that part of such loan which is proposed to be used for the purchase of seed.

- (c) Lien instruments (including waivers) in the form prescribed, conveying a first lien or a promise and authority, properly executed and filed, registered or recorded in the proper office as required by local State law.
- (d) A voucher for the amount of the loan in the form prescribed, signed by the applicant.
- 13. Fees for recording, filing, registration, and examination of records (including certificates) shall be paid by the borrower; provided, however, that such fees aggregating not to exceed 75 cents per loan may be paid by him from the proceeds of the loan. No fees for releasing liens given to secure loans shall be paid from the proceeds of a loan.
- 14. The right is reserved to revoke, alter, or amend these regulations at any time and without notice.

FUNCTIONS, POWERS, AUTHORITY, AND DU-TIES OF THE ASSISTANT CHIEF CLERK

DECEMBER 30, 1938.

Sec. 3.74 of Title 6, Code of Federal Regulations, is amended to read as follows:

"Sec. 3.74 Functions, powers, authority, and duties of the Assistant Chief Clerk. The Assistant Chief Clerk is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of the Chief Clerk of the Farm Credit Administration, in the event that the Chief Clerk is unavailable to act, by reason of absence from the Washington office of the Farm Credit Administration, or for any other

"The provisions hereinbefore set forth shall not operate to limit or restrict the Chief Clark of the Farm Credit Administration in the execution and performance of any functions, powers, authority, or duties vested in him. (E. O. 6034. March 27, 1933, 6 CFR 1.1 (12).) [FCA Order No. 246, December 30, 1938.]"

H. A. WALLACE, Secretary of Agriculture.

[F. R. Doc. 39-27; Filed, January 3, 1939; 12 m.]

Area for the Year 1939

BY THE SECRETARY OF AGRICULTURE OF THE UNITED STATES OF AMERICA, A PROCLAMA-TION

Whereas Sec. 327 of the Agricultural Adjustment Act of 1938, as amended, provides in part as follows:

Not later than February 1, the Secretary shall ascertain and proclaim the commercial corn-producing area.

Whereas subsection (b) of Sec. 301 of said act provides in part as follows:

(A) "Commercial corn-producing area" shall include all counties in which the average production of corn (excluding corn used as slage) during the ten calendar years immediately preceding the calendar year for which such area is determined, after ad-justment for abnormal weather conditions, is four hundred and fifty bushels or more per farm and four bushels or more for each acre of farm land in the county.

(B) Whenever prior to February 1 of any calendar year the Secretary has reacon to calendar year the Secretary has reacon to believe that any county which is not in-cluded in the commercial corn-producing area determined pursuant to the provisions of subparagraph (A), but which borders upon one of the counties in such area, or that any minor civil division in a county bordering on such area, is preducing (ex-cluding corn used for silage) an average of at least four hundred and fifty bushels of corn per form and an average of at least corn per farm and an average of at least four bushels for each acre of farm land in the county or in the minor civil division, as the case may be, he shall cause immediate investigation to be made to determine such fact. If, upon the basis of such investiga-tion, the Secretary finds that such county or minor civil division is likely to produce corn in such average amounts during such calendar year, he shall proclaim such determination, and, commencing with such calendar year, such county shall be included in the commercial corn-producing area.

Whereas subsection (c) of Sec. 301 of said Act provides:

The latest available statistics of the Federal Government shall be used by the Secretary in making the determinations required to be made by the Secretary under this Act.

and

Whereas the Secretary of Agriculture, having had reason to believe that certain counties bordering on the commercial corn-producing area as determined under subparagraph (A) of Sec. 301 (b) (4) of said Act, and that certain minor civil divisions in certain counties bordering on such area are producing (excluding corn used for silage) an average of at least 450 bushels of corn per farm and an average of at least 4 bushels for each acre of farm land in the county or in the minor civil division, as the case may be, has caused reasonable investigation to be made to determine such facts with respect to such counties and minor civil divisions and to determine which, if any, of such counties or minor civil divisions are likely to produce corn in such average amounts during the calendar year 1939;

Now, therefore, be it known that I, H. A. Wallace, Secretary of Agriculture Amended.

PART 721—COMMERCIAL CORN-PRODUCING of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in me by the Act of Congress known as the Agricultural Adjustment Act of 1938, as Amended, upon the basis of such investigation and the latest available statistics of the Federal Government, do hereby ascertain, determine, and proclaim under Sections 301 and 327 of said Act:

PART 721—CORN ACREAGE ALLOTMENT FOR THE COMMERCIAL CORN-PRODUCING AREA FOR 1939

BY THE SECRETARY OF AGRICULTURE OF THE UNITED STATES OF AMERICA, A PROCLAMATION

Whereas Section 328 of the Agricultural Adjustment Act of 1938, as amended, provides in part as follows:

The acreage allotment of corn for any calendar year shall be that acreage in the commercial corn-producing area which, on the basis of the average yield for corn in such area during the ten calendar years immediately preceding such calendar year, adjusted for abnormal weather conditions and trends in yield, will produce an amount of corn in such area which the Secretary determines will, together with corn produced in the United States outside the commercial corn-producing area, make available a supply for the marketing year beginning in such calondar year, equal to the reserve supply level. The Secretary shall proclaim such acreage allotment not later than February 1 of the calendar year for which such acreage allotment was determined.

and

Whereas Subsection (c) of Section 301 of said Act provides as follows:

The latest available statistics of the Federal Government shall be used by the Sccretary in making the determinations required to be made by the Secretary under this Act,

Now, therefore, be it known that I, H. A. Wallace, Secretary of Agriculture

stipulation was approved by the Commis-| muscles, strengthen digestion and pro-| made and sold by it to its customers, sion, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Northwestern Yeast Company, its successors and assigns, officers, representatives, agents and employees, directly or indirectly, or through any corporate or other device, in connection with the offering for sale, sale and distribution of its preparations or products now designated as "Yeast Foam Tablets" and "Animal-Poultry Yeast Foam" or any other preparations or products, composed of like or similar ingredients or possessing like or similar properties. whether sold under these names or other names, in interstate commerce or in the District of Columbia, do forthwith cease and desist from representing directly or indirectly:

- (1) That the benefits of said preparations or products are more than:
 - (a) a mild laxative,
- (b) the supplying of the vitamin B complex in diets deficient in such vitamins.
- (c) the stimulating of leucocyte formation,
- (d) the stimulating of the appetite if same is impaired by an insufficient supply of the vitamin B complex.
- (e) the stimulating of the flow of secretions from the glands of the digestive tract, but not the stimulating or activating of glands in other parts of the body. unless and until competent medical au-

thority has shown said preparations or products to have additional therapeutic values;

(2) That the typical every-day diet in general is deficient in vitamin B;

- (3) That the use of Yeast Foam Tablets will correct skin troubles, eruptions, blemishes or bad color unless such conditions are due to an insufficient supply of the Vitamin B complex, or to such other nutritional essentials as are contained in yeast or are due to gastrointestinal irregularities which may be corrected by the use of yeast:
- (4) That the use of Yeast Foam Tablets will rid one of the cathartic habit except in so far as the use of yeast may be helpful as a mild laxative;
- (5) That the use of Yeast Foam Tablets will restore one's digestive and eliminating system to normal healthy functioning unless such condition is due to a deficiency of the vitamin B complex;
- (6) That the use of Yeast Foam Tablets will eliminate body poisons and waste unless the faulty elimination is due to a deficiency in the vitamin B complex;
- (7) That the use of Yeast Foam Tablets will stimulate intestinal action, restore energy or relieve headaches, except in those cases due to constipation resulting from a vitamin B complex deficiency;
- (8) That the use of Yeast Foam Tab-

those cases of constipation resulting from a vitamin B complex deficiency;

(9) That the use of Yeast Foam Tablets or Animal-Poultry Yeast Foam has any direct effect on cleansing or purifying the blood stream, except in so far as the said preparations may indirectly increase the number and quality of both red and white blood corpuscles in those cases where the digestive, assimilating or eliminating processes are defective because of a lack of a sufficient amount of the vitamin B complex or of such nutritional essentials as are contained in said preparations:

(10) That the use of Yeast Foam Tablets will increase body weight unless the weight deficiency is due to a loss of appetite occasioned by a deficiency of the vitamin B complex;

(11) That the use of Animal-Poultry Yeast Foam will help a dog get "all" the nourishment from his food;

(12) That the use of Animal-Poultry Yeast Foam will aid a dog in his digestion and assimilation of food except that it may aid in those cases where there is a deficiency of the vitamin B complex in the diet or a deficiency of the enzymes in the digestive secretions:

(13) That the use of Animal-Poultry Yeast Foam will result in a dog's having stronger bones, a slick glossiness of coat or immunity from germs or diseases;

(14) That the feeding of Yeast Foam to chickens will cause coccidiosis or other intestinal diseases to disappear;

(15) That the feeding of Animal-Poultry Yeast Foam to chickens will have any more effect than acting as a possible aid in combatting coccidiosis or other intestinal diseases.

It is further ordered, That the respondent shall, within sixty days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

ORDER TO CEASE AND DESIST

This proceeding having been heard1 by the Federal Trade Commission upon the complaint of the Commission and a stipulation as to the facts entered into between the respondent herein and W. T. Kelley, Chief Counsel for the Commission, which provides among other things that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondent herein findings as to the facts and conclusions based thereon and an order disposing of the proceedings, and the Commission having made its findings as to the facts and conclusions that said respondent has violated the provisions of the Federal Trade Commission Act and the provisions of Section 3 of an Act of Congress approved October 15, 1914, entitled "An Act to Supplement Existing Laws against Unlawful Restraints and Monopolies and for other purposes" (the Clayton Act).

It is ordered, That respondent, American Flange and Manufacturing Company, Inc., a corporation, its officers, directors, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its "Tri-Sure" or other closure structures or parts for metal containers in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

- 1. Soliciting, persuading or inducing any purchaser of "Tri-Sure" or other metal receptacle closure flanges or sealing caps, in connection with the purchase of such products, to accept a license from respondent for the use of the patents under which said patented articles are manufactured and sold by it to its customers, to acknowledge the validity of or to agree not to contest or infringe such patents, or patents which respondent does not use in connection with the manufacture or sale of such articles to its customers, or pending applications for patents held or claimed by respondent or any patent in advance of its issuance.
- 2. Recognizing or continuing in force any of the above described provisions in any existing contract between respondent and a purchaser which was obtained by solicitation or inducement on the part of respondent, provided however, that nothing herein shall require respondent to cease and desist from recognizing or continuing in force or entering into any contract, agreement or license containing provisions for the recognition of the validity of patents or patent applications

manufacture under such patents or patent applications or the validity of any patent or patents or patent applications covering dies and tools leased or loaned by respondent to its customers or covering methods or processes carried out by dies and tools in applying flanges and sealing caps manufactured and sold by respondent.

- 3. Offering, giving or agreeing to give any discount from or rebate on the prices of respondent's products upon the condition or understanding that the purchaser thereof will purchase or has purchased from respondent said products to the extent of 80% or any other percentage or proportion of his total requirements of products designed for the same use and purpose for any designated period.
- 4. Offering, giving or agreeing to give any discount from or rebate on the prices at which respondent sells its products on the condition or understanding that such purchaser has or will certify or acknowledge that he considers respondent's said products superior to all other similar products or the standard to be applied in measuring the quality, utility or efficiency of respondent's products as compared to similar products sold by competitors of respondent.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

PART 45—PUBLIC SCHOOL TUITION FOR INDIAN CHILDREN

DECEMBER 21, 1938.

Section 45.7 is hereby amended to read as follows:

"Section 45.7 Per Capita Tuition. It is the duty of the superintendents to consider carefully the daily rates recom-mended, whether correct for a single school district, and comparatively as to all districts within the jurisdiction, in order to secure impartial uniformity. Rates are based on estimated enrollment. It is the duty of the superintendent to avoid excessive estimates. When the average attendance is considerably less than the estimated enrollment, such estimate is subject to arbitrary reduction, except where satisfactory explanation is furnished. Determining factors regarding rates are:

- a. The proportion of non-taxable Indian land.
- b. The annual operative cost and income other than Federal tuition.
- c. The daily per capita cost per pupil per day (based on average attendance).
- d. The scholastic standards maintained.
- e. The proportion of Indian children to white children.
- f. Any other special facts in a given case, such as Special State equalization aid.
- g. When an increase in the daily rate is necessary to secure improved school facilities, a clear statement of the facts with recommendations should accompany the application.

The cost of noonday lunches or transportation, if provided, will be an addi-

tion to the basic rate, but these added | paid before tuition money is used for re- | of each week, beginning Friday, January costs should be explained and itemized pairs on buildings." separately in the blank spaces afforded for them."

Section 45.14 is hereby amended to read as follows:

"Section 45.14 Pupils entitled to tuition payment. Payments shall not be made under any authority issued under these regulations for any pupil having less than one-quarter Indian blood, for children of regular employees of the Indian Service, nor for any pupil if he or either of his parents owns taxable real property within the public school district; Provided, that when pupil or parent owns taxable and non-taxable real property within the district, payment may be made if the non-taxable holdings by them jointly are greater in value than the taxable holdings. The Federal Government reserves the right not to pay to any district for tuition of Indian children a sum greater in amount than the school tax would amount to on non-taxable Indian land within the district, except that tuition may be paid for children who are not residents thereof. Districts in which incorporated towns are located having a population of 500 or more shall receive tuition at the basic rate for attendance only of Indian children who live outside the corporate limits; Provided, that payment may be made for children whose parents live on trust properties situated within the corporate limits of a town. In filling in that portion of the application giving the number of children for whom tuition is requested, especial care should be taken to state plainly the number of children for whom tuition is requested who are residents, non-residents of the district, or live outside the corporate limits of the town wherein the school is located. If tuition is requested for town and city children attending local schools, reasons for making such request should be carefully stated. Neglect to observe these provisions will result in delay. In districts where there is a proportionately large enrollment of white children, tuition will not be paid for two or three Indian children, except in special cases, approved in writing by the Indian Office, as there is no great additional expense on account of the Indian children; Provided, that tuition for Indian children shall not be used by public school districts for any obligations except those of the current year, except upon approval in writing by the Indian Office, and assurance to such effect must be given by school districts or counties; Provided, that the right is reserved to refuse or reduce tuition payments for Indian children to any school district maintaining less than the highest state standards with respect to professional preparation of teachers, school equipment and supplies, text and library books, construction and sanitation of buildings. Teachers' salaries must be
